

GERALD CACHO

Senior Web Developer | WordPress Specialist | UI/UX Designer

gc.geraldcache@gmail.com | +63 956 239 5443 | www.geraldcache.com

SUMMARY

Senior Web Developer and Designer with 10+ years of experience delivering websites, eCommerce platforms, digital experiences, and business solutions for international clients across the US, UK, and Australia. Specialized in WordPress development, UI/UX design, front-end development, technical SEO, CRM systems, and marketing automation. Experienced in taking projects from requirements and design through development, integrations, testing, deployment, and ongoing optimization. Strong background in custom WordPress development, WooCommerce, HubSpot, GoHighLevel, form and workflow automation, cloud hosting, and modern JavaScript frameworks. Combines technical problem-solving, design expertise, and business understanding to deliver practical, user-focused digital solutions.

PROFESSIONAL EXPERIENCE

CodeBlu Development - WordPress Developer & Designer

Mar 2025 - May 2026

- Led end-to-end website design and development projects for international clients, from requirements gathering and UI/UX planning through development, QA, deployment, and post-launch optimization.
- Designed UI/UX layouts, wireframes, and prototypes in Figma, translating client requirements and brand guidelines into intuitive user experiences.
- Developed and customized WordPress websites, themes, and plugins using PHP, HTML5, CSS3, and JavaScript, with a focus on performance, usability, maintainability, and brand consistency.
- Converted Figma designs and wireframes into responsive, production-ready websites optimized for desktop, tablet, and mobile.
- Integrated third-party services and payment gateways, including PayPal and Stripe, to support secure eCommerce and transaction workflows.
- Managed WP Engine hosting environments, including staging sites, deployments, backups, troubleshooting, and performance optimization.
- Improved website performance through front-end optimization, asset management, caching, image optimization, and technical troubleshooting.
- Implemented technical SEO, accessibility, and security best practices to improve website health, usability, and search visibility.
- Conducted responsive, cross-browser, functional, and regression testing to ensure stable, high-quality launches.

Freelance - Web Developer | Graphic Designer | UI/UX Designer

May 2017 - Mar 2025

- Managed end-to-end digital projects for international clients, combining web development, UI/UX design, graphic design, CRM management, marketing automation, SEO, and technical consulting.
- Designed, developed, and maintained websites across WordPress, Shopify, Webflow, Next.js, and Nuxt.js, adapting solutions to different business models and technical requirements.
- Converted PSD and design layouts into responsive WordPress websites, custom themes, and front-end interfaces using HTML, CSS, JavaScript, and PHP.
- Built and maintained eCommerce websites using WooCommerce and Shopify, including product layouts, functionality, forms, integrations, and UX improvements.
- Managed HubSpot environments, including landing pages, forms, contact properties, pipelines, workflows, email automations, and CRM configurations.
- Built and maintained GoHighLevel funnels, forms, pipelines, workflows, and marketing automations to support lead generation and business processes.
- Managed Snapforms forms (creation, field configuration, conditional logic, workflow setup) and used Axcelerate CRM for day-to-day administration and data management.
- Implemented technical and on-page SEO strategies, including site structure, keyword targeting, page speed optimization, and search indexing.
- Managed Google Ads campaigns and supported digital marketing through landing pages, content, and conversion-focused improvements.

- Managed cloud-hosted environments, including Amazon Lightsail: deployments, server configuration, security, backups, and ongoing maintenance.
- Served as a trusted technical and creative consultant across web development, design, automation, SEO, and digital marketing.

Cloudstaff - Web Developer (Client: TheHypeSociety)

Nov 2022 - Jul 2024

- Developed, maintained, and enhanced WordPress websites using Elementor, WPBakery, and Gutenberg based on client requirements and ongoing business needs.
- Customized WooCommerce websites to improve eCommerce functionality, layouts, product experiences, and user interactions.
- Collaborated with digital marketing teams to implement SEO, analytics, and performance improvements across websites.
- Created email marketing templates, signatures, and other digital assets for campaigns and business communications.
- Maintained websites across WordPress, Wix, Squarespace, and Unbounce, adapting to different CMS environments and publishing workflows.
- Monitored website performance and handled updates, maintenance, and troubleshooting to keep sites functional and reliable.

Emapta - Senior Graphic Designer (Client: Canningvale Australia Pty Ltd)

May 2022 - Sep 2022

- Created and maintained brand guidelines to establish consistent visual standards across digital and marketing materials.
- Produced web banners, EDMs, social media graphics, promotional materials, and other digital assets based on campaign and brand requirements.
- Designed and prepared print-ready artwork, including swing tags, jar labels, inserts, and box labels.
- Retouched, color-corrected, and enhanced product imagery for digital and print applications.

Cloudstaff - Senior Software Engineer (Client: Virtunet Australia)

Oct 2021 - Feb 2022

- Designed, implemented, and managed WordPress websites based on client requirements and business objectives.
- Managed front-end and back-end website development, ensuring functionality, usability, and reliable performance.
- Developed custom WordPress themes and plugins to extend website functionality and support client-specific requirements.
- Managed eCommerce and BYOD page functionality within Datto environments.
- Managed Linux web server environments and supported website infrastructure and operations.
- Created EDMs, social media creatives, and other graphic design assets to support marketing initiatives.

GulfStar - Graphic Designer | Desktop Publisher | Bid Coordinator

Oct 2018 - Dec 2020 | Dubai, UAE

- Supported the redevelopment and ongoing maintenance of the corporate website, including design, content, and technical updates.
- Designed and developed website layouts, marketing collateral, logos, brochures, folders, and newsletters for digital and print.
- Created website prototypes and design systems using Figma and Adobe XD; converted PSD designs into WordPress themes and customized plugins.
- Developed and maintained eCommerce functionality using WooCommerce and Shopify; managed cPanel and supported site launches.
- Managed social media accounts and supported digital marketing, including SEO and Google Ads.
- Created and formatted RFP/RFQ and tender documentation, ensuring compliance with client requirements and submission standards.
- Coordinated with managers and subject matter experts to collect, edit, and incorporate technical content into proposals; managed version control and templates.

Blocks Real Estate - Web Developer | Graphic Designer | Digital Marketing Executive

Sep 2017 - Oct 2018 | Dubai, UAE

- Designed, developed, and maintained business websites based on company and marketing requirements.
- Developed and maintained website functionality, including API integrations and content management.
- Created website layouts, marketing graphics, brochures, folders, newsletters, promotional videos, and enhanced imagery.

- Managed cPanel environments and supported website launches and ongoing maintenance.
- Implemented SEO strategies focused on targeted keywords, site structure, and search visibility; managed Google Ads campaigns and social media.

ZIMI Tech - Front-End Developer

Sep 2015 - May 2017

- Planned and designed prototypes for websites, web applications, and internal systems based on business and user requirements.
- Developed and maintained front-end functionality using HTML, CSS, JavaScript, and related technologies.
- Converted design concepts and PSD layouts into responsive, cross-browser-compatible interfaces; built platform-compatible CSS solutions.
- Created logos, images, animations, banners, buttons, and other visual elements for websites.
- Converted PSD designs into WordPress themes and customized plugins; implemented SEO strategies and ongoing optimization.
- Provided technical support to end users and assisted team members with web development issues; managed cPanel environments.

Optimize Web Solutions - Web Developer | IT Administrator | Webmaster

Feb 2014 - Aug 2015 | Baguio City, Philippines

- Designed and developed custom WordPress themes and static PHP websites based on client requirements.
- Converted PSD layouts into responsive web pages using HTML, CSS, and JavaScript; performed cross-browser testing and debugging.
- Integrated social media applications and third-party services into websites.
- Performed website maintenance, enhancements, troubleshooting, and ongoing content updates.
- Managed WHM and supported website hosting and deployment; assisted with launching new websites and configuring hosting environments.
- Managed PC, network, and basic IT infrastructure, troubleshooting hardware and connectivity issues.
